TOSRV Story

Bea Fishman

When grandson Tyler was 13 he rode for the first time with his grandpa, a seasoned TOSRV rider whose first ride was in 1977. Tyler rode a child's bike, and Grandpa Warren rode a recumbent bike, having had two back surgeries over the years, that were designed to protect his back. It was a tough ride, but they finished!

This year Grandpa Warren made his ride with a group of five family members, including granddaughters Maddie and Heidi, grand niece Mary, and Mary's dad, Sean.
